20% Increase In Deposits At American Nat'l. Bank In GC

A 20% increase in the bank's deposits in 1962 was reported yesterday by Harold F. Karandjef, president of the American National Bank of Granite City during the bank's annual meeting of stockholders.

Karandjef said the increase exceeded all forecasts made during the formation of the bank. He said the growth of business and residences in the area served by the bank will increase during 1963, even though the growth in 1962 fell short of expectations.

"The widening of Namok road from the city limits to Madison avenue and the paving of Johnson road are essential to the growth of the area," he said. With the increase in the number of customers served by the bank, the parking area was substantially increased late in 1962, and two additional driveways

Directors, Officers Re-Elected

1st National Bank Promotes Geo. Reeves, Edw. Zabawa

Two promotions were announced Tuesday afternoon's annual meeting of stockholders of the First National Bank of Granite City. An increase in the bank's gross income was reported.

George W. Reeves was promoted from assistant cashier to assistant vice-president and was head the business development department; and Edward Zabawa was promoted from head commercial teller to the assistant manager.

Reeves, who lives at 2296 Gary avenue, has been with the bank since 1957; while Zabawa, who lives at Collinsville, joined the bank in 1958.

At the annual meeting more than two-thirds of the bank's 60,000 shares of capital stock were represented. All 14 directors were re-elected.

They are—Harold R. Fischer, Howard Kaseberg, Fred W. Kottmeier, Paul H. Lichtenberger, Edwin Niedringhaus, Samuel E. Pershall, Samuel E. Pershall Jr., Walter W. Pershall, Carl A. Rant, John W. Reese, Walter A. Reese, Otto H. Romann, George D. Schierberg and John J. Stolze.

Following the stockholders meeting, the newly-elected directors met to organize and elect officers.

The officers are—Erwin Niedringhaus, chairman; S. E. Pershall, vice-chairman; Fischer, president and trust officer; Lichtenberger, executive vice-president and assistant trust officer; C. L. Gavin, vice-president and secretary of the board of directors; H. H. Nelson, vice-president; I. J. Pitman, cashier; George W. Reeves, assistant vice-president; Earl G. Ditzhauer, Howard L. Etherton, Walter K. Geyck, Leonard W. Law, Glenn Ruckelge and Alex Schenker, assistant cashiers; Shirley Dinges, auditor, and Vernon L. Ernst, assistant auditor.

Commenting on the 1962 operation of the bank, Chairman Niedringhaus informed the stockholders: "The past year again witnessed a very satisfactory growth in your bank. Total de-

posits at the year end were \$1,170,000 greater than at the end of 1961.

"Gross income increased approximately 10%, but due primarily to the increase in the rate of interest paid on savings accounts and time deposits to four per cent and an increase in local taxes, net income decreased 10% as compared with the previous year.

"Business prospects in the Tri-City area appear to be good for the coming year. The proposed reduction in income taxes, if passed by Congress, should result in an increased demand for both durable and non-durable goods and should stimulate retail sales.

"This increased demand likewise will create a greater need for products of our industrial plants, thereby giving more employment to our local citizens.

"Since your bank was founded in 1922, Niedringhaus said, we have shared directly in the growth and prosperity of our area, and our continuous position as the leading financial institution in our community is very gratifying evidence to your directors and officers of the service we are rendering to our citizens.

"As we enter our 61st year, we renew the pledge made by our founders that we will continue to maintain our bank as a safe depository for the funds of our customers and to stand ready at all times to take care of the legitimate credit needs of our area."

Speaking of the board of directors, Niedringhaus said, "The bank is indebted to each of us in having this outstanding group of individuals, representing all segments of our business, industrial and agricultural community, to guide the affairs of our bank."

"These men, whose combined experience in the business world totals well in excess of 400 years, bring to the bank a rich background of knowledge which is invaluable to the executive officers in the operation of the bank."

C. Of C. Board Proposes Consolidation Of Offices

Consolidation of several offices for more economic operation was proposed Tuesday evening by the Tri-Cities Chamber of Commerce board.

E. G. Schmitt was named chairman of the special housing committee to meet with representatives of the Associated Retailers and the Tri-Cities United Fund and other organizations on the possibility of sharing quarters.

Another new committee named Tuesday is to consider the need to revise by-laws.

The board met at the Rose Bowl restaurant for a dinner session, and President Chester L. Baker announced he will submit names next month to fill three vacant board posts.

The vacancies were created by the recent death of Atty. John Dufer and the transfers of George Maize of Southwestern Bell Telephone Co. and L. R. Causey of the Nestle Co.

Baker also displayed new membership cards which are larger and orange in color.

New Member Approved was the membership application of Thomas L. Blazier of Blazier Co., an East St. Louis plastering firm recruited by M. Freeman Wolfe.

A vote of the board was presented to the C. of C. office by Alvin T. Barnes Jr., executive director of the Associated Retailers in appreciation for use of the C. of C. conference room for his organization's monthly meeting.

E. A. Karandjef reported the program of work committee studied 206 project suggestions from the recent forum series and the items were grouped and are being referred to committees for consideration.

Other reports included announcement of an area industrial development advertisement in the December issue of the "Industrial Development" magazine featuring pictures of the local canal harbor and Granite City Steel Co., and plans for an ad in the January issue.

Heat Controls To Be Improved At Niedringhaus
Steps to improve automatic heat control in the original 34-seat portion of the Niedringhaus grade school were authorized by the Granite City school board during a semi-monthly session Tuesday night.

A \$66 electric motor was ordered from the Industrial Engineering Equipment Co. of Dayton, Ohio, to replace a worn-out motor in a unit ventilator. The one-tenth horsepower motor previously was unavailable, and one of the 11 original classrooms has been without direct control of heat and ventilation for six years.

If the new motor proves successful, additional replacements are planned as needed.

The board gave approval for a burned-out one-horsepower motor to be replaced with a one-and-a-half-horsepower motor at the walk-in cooler in the Prather Junior high school cafeteria kitchen. Cost will be \$80 for the new motor and \$37 for labor.

Electrical supplies totaling \$248 were purchased on the basis of low bids, \$159 from Graybar Electric Co., St. Louis, and \$89 from Illinois Electric Works, East St. Louis. Prices quoted will be maintained throughout 1963 for any future needs, the bidders related.

Window shades totaling \$166 were ordered from St. Louis Shade and Hardware Co. on its low bid. Twenty-nine shades and six black shades will be obtained.

Bids were opened on paper supplies, hardware, an air drying unit, ceramic tile repairs, small equipment for cafeterias and athletic equipment for spring sports. They were referred to the administrative staff for analysis and recommendations at the Jan. 22 board meeting.

School Treasurer and Board Member Monroe Worthen reported complaints on the condition of the Miryville grade school parking lot. He said he had noticed that it appeared to be too low when he drove by the school Tuesday morning.

School Engineer Marvin Dean said the lot was graded and Grade Eight limestone was applied to its surface later the same day, adding that other improvements are planned.

Ice was scraped off the parking lot, and the grading work will enable it to drain more easily, Dean said.

Board President Robert Spengler said he has learned from Nameoki township officials that the township hopes to pave the roadway in front of Marvynville school and also hopes to install a sidewalk in the vicinity.

Board Member Dan Lindeer asked that high school students crossing Madison avenue in the afternoon be urged to remain in the crosswalks to reduce traffic hazards.

Group Telephone Alarm System For Madison Firemen

The Madison city council authorized City Clerk Percy Lux Tuesday night to make arrangements with Southwestern Bell for a group telephone alarm system for the homes of firemen.

The arrangement will be in compliance with FCC directives that all communities take all calls off police radio frequencies except police calls.

The 20-station group alarm system will cost \$47 a month plus a \$50 installation fee. It provides a distinctive ring on the telephones in the volunteers' homes. The system can be expanded to include a maximum of 40 telephones.

New Gas Franchise
The council passed an ordinance for new 50-year franchise with Illinois Power Co. for gas. The existing franchise will be rescinded and superseded by the new one.

According to the agreement, the city will save an additional \$33,000 during the 50-year period of the contract in the form of additional free gas.

Instead of the present allowance of 14,000 therms a year, the city will be allowed 20,000 therms—a saving of 8600 annually.

The council also revised the ordinance governing the organization of the police department. The department has been authorized a chief, one captain, a lieutenant and three sergeants.

The ordinance provides for an additional lieutenant and an additional sergeant.

Heat Controls To Be Improved At Niedringhaus

Steps to improve automatic heat control in the original 34-seat portion of the Niedringhaus grade school were authorized by the Granite City school board during a semi-monthly session Tuesday night.

A \$66 electric motor was ordered from the Industrial Engineering Equipment Co. of Dayton, Ohio, to replace a worn-out motor in a unit ventilator. The one-tenth horsepower motor previously was unavailable, and one of the 11 original classrooms has been without direct control of heat and ventilation for six years.

If the new motor proves successful, additional replacements are planned as needed.

The board gave approval for a burned-out one-horsepower motor to be replaced with a one-and-a-half-horsepower motor at the walk-in cooler in the Prather Junior high school cafeteria kitchen. Cost will be \$80 for the new motor and \$37 for labor.

Electrical supplies totaling \$248 were purchased on the basis of low bids, \$159 from Graybar Electric Co., St. Louis, and \$89 from Illinois Electric Works, East St. Louis. Prices quoted will be maintained throughout 1963 for any future needs, the bidders related.

Window shades totaling \$166 were ordered from St. Louis Shade and Hardware Co. on its low bid. Twenty-nine shades and six black shades will be obtained.

Bids were opened on paper supplies, hardware, an air drying unit, ceramic tile repairs, small equipment for cafeterias and athletic equipment for spring sports. They were referred to the administrative staff for analysis and recommendations at the Jan. 22 board meeting.

School Treasurer and Board Member Monroe Worthen reported complaints on the condition of the Miryville grade school parking lot. He said he had noticed that it appeared to be too low when he drove by the school Tuesday morning.

School Engineer Marvin Dean said the lot was graded and Grade Eight limestone was applied to its surface later the same day, adding that other improvements are planned.

Ice was scraped off the parking lot, and the grading work will enable it to drain more easily, Dean said.

Board President Robert Spengler said he has learned from Nameoki township officials that the township hopes to pave the roadway in front of Marvynville school and also hopes to install a sidewalk in the vicinity.

Board Member Dan Lindeer asked that high school students crossing Madison avenue in the afternoon be urged to remain in the crosswalks to reduce traffic hazards.

For the second meeting, a review of curriculum guides was postponed due to the press of other business.

Educational fund bills approved, totaling \$31,550, included \$332 for expenses of GCIS wrestlers' trip to Wauegan, \$391 for GCIS basketball players' participation in the Pontiac holiday tournament and \$88 for cheerleaders' trip to Pontiac.

Also paid were building fund bills totaling \$7376, including \$4888 to G. H. Sternberg and Co. for construction work at Nameoki grade school; \$33,650 for bonds and interest, all forwarded to the American National Bank and Trust Co., Chicago; \$5917 for transportation, including \$704 to Community Coach Co. for charter trips; and \$16,341 cafeteria bills, including \$6334 to Dressel-Kung Dairy Co. for dairy products.

MORE ABOUT Treatment Proposals

(Continued from Page 1.)

Veseli, chairman of the special committee, said the board received the proposals from the two engineering firms.

Veseli declined any comment on the proposals, only to say they were to be studied by the committee.

Alderman Edmund Bartosiek, a member of the special committee, who was standing with Veseli and Johnson, appeared to be surprised and unaware that the proposals were in the hands of the city.

Nonn, also a special committee member, then walked up, grinning and commented that the details would be given out later.

The other special committee member, Samuel Shuckelord, did not join the group.

When questioned by Johnson, Veseli said he would have to look over his records to find out if Sverdrup & Parcel had been considered or contacted.

already had been lost because of the delay in building the street.

The Board of Reitors also was criticized for its stand. The members have pointed out developers are required by the city to build streets in new areas with private capital. The board stresses city motor fuel tax funds should be used to repair and improve existing streets.

In separate action, the council approved a routine \$115,000 motor fuel tax resolution for maintenance of arterial streets in 1963.

tional fund payments totaled \$15,338, transportation costs \$350, building fund payments \$1429 and Illinois Municipal Retirement Fund payments \$459.

Purchases Authorized
The board authorized Supt. John O. Pier to purchase the band instruments from the Johnson Music Co. at a cost of \$675. Instruments purchased were to be from a list of those needed, supplied by the Lincoln music department.

The board accepted Pier's recommendation for purchase of an electric mimeograph machine from the A. B. Dick Corp. for \$445, including trade. Pier said difference in prices of the electric and hand-operated machines did not warrant purchase of the latter.

Pier was authorized to buy a washing machine to replace one now in use in the Vance high school home economics department at the best price obtainable. He said the machine now in the department is several years old and is no longer in useful condition.

Electrical Bums
George Lick, 56, of Indianapolis, Ind., was admitted to St. Elizabeth Hospital yesterday afternoon with electrical burns to his head and right hand. He was injured while installing equipment at the Burger Chef, 2642 Madison avenue. He was not reported in serious condition.

Warriors Meet O'Fallon In Dupo Tournament Tonight

Belleville, Cathedral Win First Round Games

Huskies Handcuffed On GCHS Mats, 36-11; Warrior Subs Play Big Role

Granite City, considerably ahead of its pace at this time last season, moved into the Dupo Invitational high school basketball tournament tonight to battle O'Fallon's Panthers in a 7:15 first-round game.

This winter's edition of Coach Andy Sullivan's Warriors has compiled an 8-3 record; the Redmen, basically the same players who make up the current squad but a year younger, entered the 1962 Dupo meet with an 0-9 record.

Working on a four-game winning streak, Granite City will go against a club which has won twice in the past six days, defeating New Athens 74-68 on Tuesday and Waterloo 49-40 last Friday.

The Warriors will have to stop hot-shooting Joe Merkel and Vic Eskra, who rimmed 74 points between them in the Panthers' two latest starts.

At 8:45 tonight, host team Dupo, whose 1-7 record is the poorest shown by any team in the tournament, will play Freeburg's Midgits. One of those two teams will provide Granite City's opposition on Friday or Saturday, depending on whether or not Sullivan's club can get past the Panthers this evening.

Jerseyville Stubbins.

Last night, Belleville experienced a few anxious moments before working its way past a suburn Jerseyville, 59-51. The No. 1-ranked and No. 2-seeded Maroons moved into the semifinals, where they will meet cross-town rival Cathedral at 7:15 p.m. Friday.

Cathedral had less trouble in knocking off disappointing Alto 67-59 in last night's second game.

Scoring star Dave Remm of Belleville picked up only nine points as he was defended well by the Panthers. But guard Del Gernann and Roger Bech told made the difference with 30 points between them.

Warren Anderson led Jerseyville (5-4) with 14 points. Jerseyville could not match Belleville's strength on the boards.

Cathedral's Tim Klump was the scoring star in the Crusaders' win over Alto, pouring in 29 points. Bob Jones led the Redbirds with 21.

Last year, Granite City was beaten in the first round by Belleville, scored its first win in a 3-21 season against Jerseyville. In a losers' bracket semifinal and then dropped the consolation final to Cathedral.

Chiefs Lose Lead In Final Minutes; Edwardsville Wins

Fraser's Chiefs lost a slim lead they had held throughout the game in the final two minutes of play here Tuesday night and dropped a ninth grade basketball decision to Edwardsville 58-56, despite a 31-point performance by the losers' Jim Rams.

The Chiefs led 32-29 at the half and 47-43 after three quarters. Edwardsville scored the winning basket in the final 30 seconds of play.

Edwardsville's eighth graders also scored a victory over Fraser, 38-30, after building up a 22-12 halftime lead. Bob Barnhart had 10 points to lead Fraser scores. The Chiefs are at North JHS of Collinsville at 6:30 tonight for a pair of Junior high conference games.

Venice Keeps Winning In Grade School Loop

Venice grade school improved its pace-setting Grade School conference basketball record to 9-0 last night by knocking off previously unbeaten Bethalto (5-1) in Venice, 41-26.

A balanced scoring attack was led by Rich Essington with 12 points and Greg Puett with 10. Venice's eighth graders led 20-5 at halftime, and now have a 15-1 record for the season. Bethalto captured the "B" team contest 65-35.

Weslin In Finals Red Devils Advance At New Baden; Meet Brees For 3rd Time Tonight

Host Weslin became the first club to reach the finals of the New Baden invitational basketball tournament last night. The Warriors started a last-minute rally against Lebanon, made up a five-point deficit and pulled off a mid-air upset against the Greyhounds, 60-59.

Improved Venice will get a shot at Wednesday's final game, provided the Red Devils are good enough to take Brees for the second straight time tonight. The teams meet in a championship semifinal contest at 8:30.

Brees bounced the Devils out of the MCM tournament before Christmas, but Coach Bill Ohlenberger's club won 59-50 at Brees on Jan. 4.

The Red Devils reached the semifinals with an easy 72-44 victory against Aviston Tuesday night after Brees had advanced over Ashley, 78-59.

Weslin, the MCM tournament champion, disposed of Marlin 44-43 and Lebanon powered past Tamaroa 89-44 in the first-round game Monday.

In a losers' bracket semifinal last night, Marlin won over Tamaroa, 59-42. Prior to tonight's Venice-Brees contest, Ashley and Aviston will play a consolation semifinal game at 7 o'clock.

The consolation final will be played at 7 p.m. Friday between Marlin and the loser of tonight's Ashley-Aviston game. Lebanon

and the loser of tonight's Venice-Brees contest will play at 8:30 p.m. Friday for a third-place trophy.

The championship final is scheduled at 8 p.m. Saturday.

Seven Points In Minute Lebanon enjoyed a 41-30 lead over Weslin at halftime last night, but went scoreless in the final minute of the game.

Ken McMullen, Pete Fields, Jerry Cicio and Paul Sitten had contributed 60 points between them. Venice had doubled the score against its opponent by half-time, 36-18, but could not contain Tom Von Hatten, who finished as the game's high scorer with 23 points.

The Brees-Ashley contest turned into a battle of individual scorers. Stark's 30-point performance was backed up by teammate Larry Baker's 27-point effort, while Ashley's Charles Sessel had 23.

The Venice-Aviston contest: Venice—Cicio 16, Sitten 13, McMullen 12, Hornman 11, Fields 8, John Robertson 6, Mike Edwards 4, Bill Getz 2, Howard Black 0, Don Agers 0; Aviston—Von Hatten 23, Ken Stricker 9, Jerry Nemeteyer 6, Vern Evergreen 4, Bill Heintz 2, Mike Nemeteyer 0, Bill Fankle 0.

Monday night opens went to Weslin, which broke away from Marlin in the second half for a 64-43 victory, and to Lebanon, which completely outclassed little Tamaroa 89-44.

Lebanon raced to a 42-15 halftime lead, and free substitution in the second half did not keep the Greyhounds from piling up an even larger final advantage. Don Loering led the winners with 18 points.

Weslin led 25-22 at halftime, and then steadily opened the gap behind the shooting of Ralph Johnson and Dave Bred, both of whom finished with 15 points.

Before they left the game, Venice regulars Jim Hornman,

Ken McMullen, Pete Fields, Jerry Cicio and Paul Sitten had contributed 60 points between them. Venice had doubled the score against its opponent by half-time, 36-18, but could not contain Tom Von Hatten, who finished as the game's high scorer with 23 points.

The Brees-Ashley contest turned into a battle of individual scorers. Stark's 30-point performance was backed up by teammate Larry Baker's 27-point effort, while Ashley's Charles Sessel had 23.

The Venice-Aviston contest: Venice—Cicio 16, Sitten 13, McMullen 12, Hornman 11, Fields 8, John Robertson 6, Mike Edwards 4, Bill Getz 2, Howard Black 0, Don Agers 0; Aviston—Von Hatten 23, Ken Stricker 9, Jerry Nemeteyer 6, Vern Evergreen 4, Bill Heintz 2, Mike Nemeteyer 0, Bill Fankle 0.

Bill, Optimists, Farmers End First Half With Wins

The Bills, Farmers and Twilight Optimists scored basketball wins at Nemo school last night in three contests which wrapped up the first half of the season in the district High School league.

The Bills defeated St. Bartholomew's 35-20 behind Bill Lierman's 24 points after moving to a 20-12 halftime lead.

The Farmers were easy 52-29 victors over Tri-Way Village after leading only 19-16 at halftime. Perry Taven had 17 points for the winners and Dale Wadsworth scored 10 for Tri-Way.

The Optimists edged Belleville 32-31, with the losers' Eric Robertson the only player in double figures with 10 points. The Optimists scored only one point in the third quarter, and the same fate befell the Barbers in the final period.

The Warriors and Coach Bill Schmitt also discovered (apparently) that GCHS reserve strength must be reckoned with. Three of the substitutes came through with victories while the fourth, Terry Young, 5-11, lost the varsity out of being paired against Wynne in Young's first varsity bout as a sub for the injured Jim Summer.

Two GCHS masters, Rich Bledsoe and Jim Cavanaugh, could not make weight Tuesday. Steve Cavanaugh and Mike Nichols stepped in and won handily as replacements. Bob Decker, substituting for Ed Rosillo, a school dropout, recorded one of GCHS' three wins at 145 pounds.

The two remaining fall victories were by 95-pounder Paul Lapinski and Nichols. Three bouts ended in draws.

JV Pins Difference John Evenden's pin-win in a heavyweight bout insured a 29-21 decision for the Warrior jayvees, who hung up five falls, drew two bouts and lost five. Pins were the difference in a 127-pound bout.

Huskies Handcuffed On GCHS Mats, 36-11; Warrior Subs Play Big Role

Granite City, with four of its first line wrestlers out, discovered that misfortune can strike other mat teams too, as it flattened a depleted St. Louis Rhenour high school contingent here Tuesday night, 36-11.

The Huskies, Missouri state prep tourney runners-up in 1962, also had four regulars out for various reasons, and scored only one individual match victory, that by 154-pound state champion Don Wynne.

Subs Come Through The Warriors and Coach Bill Schmitt also discovered (apparently) that GCHS reserve strength must be reckoned with. Three of the substitutes came through with victories while the fourth, Terry Young, 5-11, lost the varsity out of being paired against Wynne in Young's first varsity bout as a sub for the injured Jim Summer.

Two GCHS masters, Rich Bledsoe and Jim Cavanaugh, could not make weight Tuesday. Steve Cavanaugh and Mike Nichols stepped in and won handily as replacements. Bob Decker, substituting for Ed Rosillo, a school dropout, recorded one of GCHS' three wins at 145 pounds.

Dr. Kaiser said later that he is asking the school district's personnel department and Athletic Director Dick Yates to seek applications for the football coaching position.

Lewis Quits After One Year As GC Head Football Coach, Will Continue Teaching

Albert S. "Al" Lewis sr. has been relieved of his assignment as head football coach at Granite City high school at his request.
The announcement was made Tuesday night by Supt. Harold M. Kaiser at a meeting of the Granite City school board.
A former head baseball coach and trainer at GCHS, Lewis was named head football coach by the board last May 16. His 1962 team won its first two games but then dropped seven in the Southwest Conference.
However, his lifetime high school football coaching record reads 124 wins, 34 losses and six ties. He formerly coached football at his home town, Springfield, Ill., at Cathedral (now Griffin) high school, and at Princeton, Ill., and Niles and Adrian, Mich.
To Continue As Teacher
Lewis reportedly lost 20 pounds during the last football season, and confided during the fall that unless his health improved he would have to be relieved of the job. Rumors of his planned resignation have been widespread for several months.
He will continue as a high school civics, American history and social studies teacher.

In answer to verbal and written criticism directed at several school board members during and following the 1962 football season, Dr. Kaiser noted that Illinois law provides for employment of teachers and administrators and assignments to be submitted to the school board by the superintendent.
The coaching assignment was made on the recommendation of the superintendent and administration, Dr. Kaiser said, and complimented Lewis "on the work he has done with students at the high school."

owned by Mrs. Turner, contained four packages of new bed sheets, six pillowcases, three women's dresses, three women's blouses, two sets of curtains, two miniature radios, 11 long-play records and an electric mixer. Some of the items were missing from Glik's, and police are attempting to determine the other owners.

Ivan Ray Foster, 21, Edwarsville, is being held by Granite City police for the strong-arm robbery of Ernest French, 71, last Thursday.

Foster admitted last night in a voluntary statement to police that he was one of two men who lay in wait for French and robbed him of \$142. Police expect to make a second arrest shortly, according to Chief Raymond Willard.

After visiting taverns, Foster and his accomplice parked near Ernest's tavern, where French operates on N. Main. They waited until the lights went out at closing time and then walked near French's home and waited for him in his garage.

When he got into his car, he threw a coat over his head and beat and robbed him. French, who suffers from a heart ailment, was hospitalized after the attack.

Willard said a warrant will be issued against Foster today. Adams, Center Burglaries. Two Granite City burglaries were burglarized of about \$840 in goods Tuesday night.

Howard Musick, 2636 Center street, told police one man was home for about two hours in the evening. The rear door of the house was pried with a screwdriver and the place was ransacked. Items valued at \$500 was taken.

Missing were a portable television set, a muskrat coat, about \$10 in change, a quantity of men's clothing, a man's watch and a diamond onyx ring.

Richard Kienle, 2536 Adams street, reported his home had been entered. A rear door glass was smashed to gain entry.

Missing were a 16-gauge shotgun valued at \$30, a 10-gauge shotgun valued at \$100, about \$10 in coins, a watch worth \$10 and men's clothing valued at \$80.

Arthur Menendez, principal of Lake grade school, reported to authorities this morning that the school was burglarized sometime after 10:30 last night.

A window was broken at the east end of the building for the prowler to enter. Most rooms apparently were entered in a search for valuables. There was no vandalism, however, and nothing was reported missing.

City Ok's \$80,000 MFT Resolution For \$43,000 Project

An \$80,000 motor fuel tax resolution for a project estimated to cost \$43,000 for track removal and resurfacing four blocks of State street, brought a letter from Granite City council members Monday night.

However, it was approved along with a motion for the city to join forces with the local Large Water Users group in a rehearing on water rates.

In presenting the resolution for State street resurfacing, Second Ward Alderman Edmund Bartosik pointed out he had been given a \$43,000 estimate for the project last week by A. W. Pearson of the city engineering staff.

The increase to \$80,000, which Pearson said had been authorized by the state highway department as the amount to be inserted in the resolution, was turned by one alderman as a "wild jump."

A spokesman for the state highway department said the Village told the Press-Record that while it was customary for MFT resolution to carry higher amounts than actually required, that "it sounds like someone might be too generous" on the State street project.

"Funds Tied Up"

He explained the state prefers to have the monies high in order to avoid supplemental res-

olutions for additional funds and added paper work. "We want the preliminary estimates to be high but while the project is pending and being carried out, the specified amount is tied up."

The state officer said the resolution on city projects should be more than actual construction costs to cover engineering expenses and the amount needed for construction inspection. "In some instances, right-of-way is to be acquired and utilities lines are to be relocated. It usually figures about 20%," he said.

Faced with the opposition to the \$80,000 figure, Pearson said all of the city's motor fuel tax resolutions were presented on that basis. He added that he had not yet prepared a detailed estimate for the project.

It is to include rail removal in the 1800, 2000, 2100 and 2200 blocks of State street and for asphalt resurfacing and curb repairs from 18th to 23rd street.

Pearson said the county would give it priority over MFT projects on less-traveled streets. He said the county would give it priority over MFT projects on less-traveled streets.

Charles Meyer said the resolutions formerly carried more accurate estimates, and that the excessive amounts distorted the overall picture of the availability

of motor fuel tax funds for other projects.

"I think it's time on the engineering end that we should be able to get estimates. We need to know the cost and not just be given a figure. We have to talk to people about these projects," Meyer said.

Also protesting was Alderman Samuel Shackleford. "I can't see any reason for the jump. Look, it's a wild jump to me. We need a better explanation."

Pearson said the cost of construction for a project is not known until the contract for work is awarded. "We wouldn't give estimates, because we don't want them appearing in the papers."

He added the state highway department has a policy of permitting the larger amounts to be included in the resolution. "Look at the Indiana avenue job. The appropriation of funds was \$60,000 and the job went for \$36,000. On Myrtle avenue, the MFT appropriation was \$20,000 and it went for \$13,000."

With all 14 aldermen present, three voted against final approval of the resolution. They were Walter Nann, Rufus LeMaster, Charles Meyer, Donald Parney, Estill Von Schmitt, Paul Ratz, and Casmer Skubish, Mrs. Ga-

brille Betinee, Samuel Whitmer, Bartosik, and State Senator Mayor Davis added his "aye" vote.

Water Rate Action
City Atty. John Githoff was instructed by the council to work with attorneys for the local Large Water Users Group in opposing the 12.75% rate increase granted in November to East St. Louis & Interurban Water Co.

The Large Water Users Group, made up of industries and businesses in this area, petitioned for a rehearing before the Dec. 24 deadline along with the village of Caseyville, Monsanto Chemical Co. and a St. Clair county large water users association.

Githoff was authorized to seek additional legal assistance in preparing the city's case for presentation. It was pointed out that not only must the city pay more for fire hydrant rental and water service, but all of the city's residents, businesses and industries are required to pay the higher rate.

Nonn pointed out he had learned last year when it was proposed to hire two attorneys, but with the work load of City Attorney John Githoff, the need. This was taken by other aldermen as an indication that another lawyer would be hired when a new budget is developed for the 1963-64 fiscal year.

Falling Wire Causes Venice Power Failure

Electrical service to the south half of Venice, as well as to Brooklyn and National City, was interrupted for 25 minutes Monday night when an underground line of another company fell across an Illinois Power Co. line in Brooklyn.

A company engineer said the Illinois Power Co. line was not damaged, but was short-circuited by the other wire. He said the falling line was in the vicinity of Tenth and Canal streets, Brooklyn.

The power went off at 7:25 p.m. and was restored at 7:50. The area without service included the Venice city hall and the Venice grade and high school building, where a basketball game was in progress. The game continued after power was restored.

County Zoning Proposal Delayed Until February

The proposed Madison county zoning ordinance will not be ready for presentation to the board of supervisors at their meeting next Wednesday, County Commissioner Charles Meyer said.

Butler said the commission has had more than 300 proposed changes to study, and the work was not finished until Monday. Engineers are now at work revising the ordinance and zoning maps, he said, but the work will not be finished for another week or 10 days.

"We're aiming for the February meeting of the board," he said. "That is the earliest we possibly could present the ordinance."

The board's regular meeting date will fall on Feb. 20.

Butler said the Edwardsville township proposal will be continued Tuesday at the county courthouse, but only as a technicality. Statutes require such an ordinance be presented to the board by the board within 30 days after the final hearing.

Further Continuance
"The Edwardsville hearing had to be held open to comply with the law," Butler said. "Actually, it will be continued again Tuesday at the county courthouse, but only as a technicality."

He said no further changes in the ordinance proposed at the meeting could be considered by the zoning commission. The ordinance is now in its final form.

Meanwhile, Southern Illinois University officials have advised they are ready to go ahead with initial stage construction of the southwestern campus near Edwardsville as soon as a suitable zoning is provided by the county.

The SU board of trustees voted some time ago to delay work at the campus until the area in the vicinity of the campus is zoned.

Concert Set Friday At SWIU Alton Campus

A Russian born pianist and her American husband will be featured Friday in a recital sponsored by Southwestern Illinois University at the auditorium on the Alton campus.

The program is open to the public without charge and will begin at 8:15 p.m.

The artists will be David Dawson, violinist, and Janet Arschanskas Dawson, pianist, who will include in their program the Bach Sonata in G, Schumann's Pictures from Fairyland, Suite Herbraque by Bloch and Brahms Sonata in F Major.

Mrs. Dawson, who was liberated by the U. S. Third Army after surviving the bombings of Berlin, lost her parents during German occupation of Russia when she and her sister, Frina, were German prisoners in the retreat to Berlin.

Violist Dawson is on the staff of Indiana University and was principal viola with the Minneapolis Symphony Orchestra. He also played with the National Broadcasting Co. symphony under the direction of Toscanini.

His wife was admitted to the Conservatory of Kharkov at the age of 8 years under a "special student" scholarship.

Candy Stripper Council Plans Included In New Program For Hospital Volunteers

Plans for a Candy Stripper Council of teenage volunteer workers at St. Elizabeth Hospital have been announced by the hospital auxiliary, sponsors of the group.

Mrs. Weldon Thomas, R.N., educational coordinator and director of volunteer services at the hospital, said the plan is included in a new program intended to make the young volunteers even more important in the hospital's patient care work.

In addition to formation of the council, the program includes plans for annual awards and election of Candy Stripper officers. While these aspects of the program are still in the planning stage, Mrs. Thomas said, others are to be put into effect immediately.

Among the immediate changes is a new system for reporting off duty. Any Candy Stripper who cannot be present for an assigned duty will call a selected member of the group. This member will report the absence to the proper person and arrange for a substitute. Senior girls in the group have assumed this responsibility.

At present, Mrs. Thomas said,

about 50 teenagers are enrolled as Candy Strippers at St. Elizabeth Hospital. She said they have donated thousands of hours of time. Each one gives two to 18 hours a week, providing service to patients and staff at the hospital.

Contribute To Patient Care

Their duties include running errands for the patients, helping with food trays, amusing the children and carrying out other tasks which contribute to the comfort and care of the patient.

"These volunteers are able to provide the extra attention which means so much to the person who is hospitalized and which cannot always be given by the hospital personnel," Mrs. Thomas said.

"Candy Strippers are valuable assets in areas of the hospital other than the nursing unit. They serve in the x-ray department, the laboratory, in medical records and in other areas."

To be a Candy Stripper, a boy or girl must be at least 15 years of age and have a good character. They must have high morals or principles, Mrs. Thomas said, with above average grades.

The prospective teenage volunteer must have references

from a teacher and a minister before being accepted. Good health and permission from parents to serve as a Candy Stripper also are required.

Instruction Required

Uniforms worn by the Candy Strippers are purchased by the individual members. Six hours of instruction must be completed before a young volunteer is assigned to an area of the hospital.

After completing the required classes, the Candy Stripper is permitted to go on the floor. Each new member then is placed on probation for a month, and given a permanent assignment.

"Perhaps most important of all," Mrs. Thomas said, "the Candy Stripper must have a mature sense of responsibility and loyalty. Big sisters or big brothers are appointed to help the new member become acquainted with the hospital, but responsibility for his duties is his own."

"The volunteer services of the Candy Strippers are greatly appreciated," Mrs. Thomas concluded, "not only by hospital personnel, but also by the patients who are benefited by the time and effort given by these young people."

THERE IS MORE TO COLLEGE than just studying, as Betty Jo Turner of Venice demonstrates. A 1961 Venice high school graduate, Betty Jo is an elementary education major at the Southern Illinois University Alton center. Helping sew paper letters on the side of a parade float is one of the volunteer activities in which she has participated during her free time on the SIU campus. Betty Jo lives at 109 Abbott street.

Truck Dealers Criticize GC Council For Bid Changes

Changes in bid specifications authorized at a Christmas Eve session by Granite City Council members were criticized by five local auto-truck dealers in a letter presented to the council Monday night. They urged the council to adhere to "firm bids."

The bids specification changes in the purchase of two new trucks for the street department, while authorized at the Dec. 24 meeting, were not carried out, as the city went ahead and ordered the trucks on Dec. 26 based on the original specifications.

The five local dealers, Don Z. Farrington, E. E. Hohl, Thomas H. Hohl, J. E. Brewer and W. S. Elledge, however, were critical of the city's authorized change in specifications without calling for new bids.

Council members defended their action and criticized the dealers. Aldermen Frank Vesel, Mrs. Gabrielle Betine, Samuel Whitmer and Casmer Skushib pointed out the city was justified in making changes in specifications and conferring only with the low bidder.

"All Treated Fairly" It was stressed that the city had done business—buying police cars and trucks—from all of the five dealers "and they were treated fairly."

The trucks were ordered from Matthews Chevrolet Co. on its original bid of \$6396. At the Dec. 24 meeting, it was reported the bid had been revised down to \$6075 through the elimination of two-speed rear axle and cast wheels.

Supt. of Streets William Warfield said he later decided to return to the original specifications, and the trucks were ordered Dec. 26.

The bids were opened at the Dec. 17 meeting and referred to the Street and Alley committee headed by Alderman Estlin Von Schmitt. They were in the amounts of \$6396 by Matthews, \$6442 by Farrington Motors, \$6661 by Huddleby Pontiac, \$7199 by B. E. Hohl, Inc., and \$7241 by Brewer Motor Co.

In their letter the five dealers pointed out, "Written bids were submitted on the trucks by five tax paying Granite City truck dealers and such bids were predicated on the specifications you listed in your request. All were compiled through considerable time and expense by these dealers."

Upon the opening of these bids on Dec. 17th, you referred them to your committee for proper consideration. At your council meeting Dec. 24, you voted to accept a revised bid from one of these dealers, such bid being revised through the elimination of two-speed rear axle and cast wheels from your original specifications on these trucks.

Not Asked For Revised Bids. "However, none of the other dealers who bid on these trucks were asked for a revised bid. If they had been asked or allowed to submit a revised bid on the same basis of elimination of certain equipment, a lower bid in some cases could have been given to the city than the one which you voted to accept."

"This is not the first time such tactics have been used," the letter continued. "One of the most noticeable being the acceptance of a bid on city police patrol cars last February, and later granting that bidder approximately a thousand dollars more than his bid called for."

"The proper, and we believe, legal way all bids should be made, where any changes are made in specifications, would be to throw out all bids and request new bids on the changed or revised specifications, which would be a fair and equitable basis to all concerned."

Therefore, we the undersigned dealers, wish to protest the purchase of the trucks and hereby request that now and in the future all bidders be allowed a fair and equal opportunity to bid on any item according to the request and listed specifications, and that all bids submitted be on a "firm bid" basis."

Vesel Explains Added Payment Vesel pointed out the added payment for the police cars resulted in an error by the Matthews firm in making a duplicate deduction for use tax, and that the extra payment by the city was approved by the city attorney.

He pointed out the original bid by Matthews on the two trucks was low by \$45 on the original specifications and that the changes approved at the Dec. 24 meeting were recommended by the city attorney and resulted in an additional deduction. "There's nothing wrong with that," Vesel said.

Skushib said that even with the city's extra payment for the police cars, the amount was still below the next lowest bid. Mrs. Betine added that there must have been a misunderstanding among dealers, since the city returned to the original specifications on the trucks.

No action was taken on the letter other than to place it on file.

ANOTHER SCHERMER FIRST "Instant Grocery Money Books"

HERE'S ALL THERE IS TO IT!

HERE'S HOW IT WORKS — If you should run short of cash, we have arranged with Gateway Finance Co. for qualified customers to obtain a \$50 book of certificates that can be spent in our store.

One you have been certified by Gateway, all you do is sign for your certificate book and agree to pay Gateway \$51 within 30 days.

Since each certificate book contains \$1 in money saving coupons besides the \$50 in certificates this means that you get \$51 in buying power in our store and pay Gateway \$51 at the end of 30 days — so — it really doesn't cost anything to obtain this credit.

Should you need a second book before the 30 days are up, this can be arranged also.

BOOKS HELP BUDGET YOUR FOOD MONEY

Many customers may wish to purchase these books for cash so as to budget their food dollars. This can be done easily at anytime and is especially desirable for people who are on monthly payrolls and find themselves "pinched" at the end of the month.

HOW TO GET YOUR "INSTANT GROCERY MONEY BOOK"

If you wish to purchase a book for cash simply see Leo, Avery or Stan. If you wish to purchase a book on the 30 day plan fill out the application at Schermer Bros., and leave it at our store. Once you have been certified by Gateway, you merely sign for succeeding books as you need them.

WHY THE MADISON COUNTY TAXPAYERS ASSOCIATION OPPOSES ZONING

On Wednesday, January 16, it is expected that the Madison County Board of Supervisors will vote upon the adoption of a Zoning Ordinance to limit, restrict and control the use of privately-owned real estate in the county.

The Madison County Taxpayers Association is against the adoption of the proposed ordinance, and takes this means of informing the citizenry of the reasons for its opposition.

First of all, adoption of the ordinance would, in the opinion of the association, impose upon the already overburdened taxpayers of the county another costly and self-perpetuating bureaucracy.

Proponents of the measure are discreetly silent in respect of costs, but it is obvious that a law which would attempt the minute regulation of every square foot of land in the entire county outside the confines of incorporated territory would necessarily commit the people to one of the most expensive adventures in the history of local government.

Zoning ordinances are not self-executing, and they do not stand on the same footing as do other regulatory laws. They must, under positive injunction of controlling state legislation, have their own enforcement personnel and their own reviewing tribunal. The minimum of executives under state statutes is six—a chief enforcement officer and five members of an appeals board—and to them must be added an indefinite number of administrative and clerical assistants.

Since the very essence of zoning is planning and mapping, engineers must be employed or engineering services must be bought in the open market. And since the law clearly contemplates adjudications by the appeals board on a legal basis and the representation of the board and enforcement administration in review proceedings in the courts, there must either be a salaried counsel for the zoning agency or another assistant must be added to the state's attorney's staff for zoning business.

The governing Illinois statutes set no limit to the salaries which may be paid under a zoning ordinance, and the proposed ordinance for Madison County is similarly silent, merely providing that the Board of Supervisors may fix the compensation of a secretary to the Board of Appeals, "and such other employees as are necessary." Reimbursement for expenditures on zoning matters is also without specific limit.

It is estimated that administration of a zoning ordinance such as that proposed for Madison County, in an area and in respect of a population as large as that of Madison County, cannot be had for less than \$60,000 per annum, and that the expense of administration may exceed \$100,000 per annum. And if these figures seem startling, one need only recall the recent history of another local bureaucracy, the Wood River Drainage and Levee District, administering an area equalling perhaps one percentum of the area of Madison County. There legal fees alone, over and above engineering expense and general administrative costs, exceeded \$42,000 in a single year. And the courts, it may further be recalled, were unable to find a legal reason to prevent their location upon the uncharitable taxpayers in the district, who had no direct voice in the first place in incuring them.

It is common knowledge that Madison County is at this hour in unprecedented financial straits. This association feels that for it now to plunge into uncharted seas of further expense would transcend poor judgment and become utter folly.

There is, however, another and far more important reason why the Madison County Taxpayers Association opposes the enactment of a zoning ordinance for Madison County.

That reason may be stated simply: the ordinance, and the philosophy behind it, are simply alien to the American way of life. They are expressions of collectivism, not democracy. Staff writer for the Edwardsville Intelligencer, in a recent article in that publication pressing for the adoption of the ordinance, unconsciously betrayed the truth when he criticized the "midwest in general" for never having "lost its inflated feeling of what is popularly called 'individualism.'"

"Included in this attitude," he said, "is a general resistance to change of any kind, a concentration with individual interests rather than the common good, a principle contrary to the basic tenets of our form of government."

But the basic tenets of our form of government do not embrace, and have never embraced, the wretched destruction of individual rights for any theoretical "common good." To the contrary, these tenets have been constructed upon the founding conviction that the greatest common good is the right of each individual member of the community to the greatest enjoyment of the fruits of his own energy without appropriation by the government.

The logic which argues that a man's property, or the reasonable use of it, may be arbitrarily stripped from him for the sake of a visionary improvement in society generally is the logic of communism, not Americanism. Today it is employed to justify rural zoning, tenements, without change or alleviation. It will be held to justify general expropriation, with every former landowner reduced to the status of a tenant of difference of the state—"for the greater common good," and in the solemn name of "progress."

Thomas Jefferson, in his first inaugural address, commenting on the schemes of the theorists who would suppress the rights of individuals to invest more power in the super-state, said: "A wise and frugal government, which shall restrain men from injuring each other, but which shall leave them otherwise free to regulate their own pursuits of industry and improvement, and shall not take from the mouth of labor the bread it has earned—this is the sum of good government."

This association does not believe that this expression of fundamental free Americanism is now ripe for radicals, condemnation and discard as "isolationist" or provincial.

The erosion of the principles of the American way of life at the hands of these who really yearn for the public vote, however they may sugar-coat their proposals with grandiose expressions of purpose, is a tragedy. This association believes there has been no demonstration of necessity for a zoning ordinance in Madison County, and that its adoption would merely mark another step in the regimentation of the people.

The Madison County Taxpayers Association urges every citizen to join in the battle against further governmental extravagance, higher taxes, and further destruction of the American way of life embodied in the proposed Madison County Zoning Ordinance. To do so, write or call the supervisor from your area and tell him that you expect him to vote NO on the proposal.

Kiwanis Club Supports Drive For Tourney Mat

The Granite City Kiwanis club is backing the current fund drive for a tournament-size mat for the YMCA by approving a donation of \$50 Monday night. The mat is needed for judo tournaments, wrestling, and tumbling. The \$1000 price tag precludes chances of a ring purchased from the YMCA budget.

E. D. "Bud" Kincaid is heading the drive to raise the money. So far, over \$300 has been pledged. All clubs interested in youth work are being asked to support the drive.

The Kiwanis donation will come from proceeds of a doughnut and coffee sale held at the YMCA on Dec. 15. The sale was reported Monday night to have been a success. Final results are not yet tabulated.

Eighteen Kiwanians attended the dinner meeting at the Elks club. The program was a film on the 1961 Indianapolis race.

Poag Neighbors To Hold Shower For Fire Victims

A shower of food, clothing and household goods will be held at 7 p.m. Friday in Poag for Mrs. James Stutts and family, who lost all their possessions except the clothes they were wearing and a cedar chest when fire destroyed their four-room bungalow and shingle home.

The fire started in the attic above the kitchen. Mitchell firefighters responded to the alarm but the house burned to the ground. A similar house next door was saved. Both were owned by Mrs. Alice Bush.

Firemen estimated the loss at about \$5000. Defective wiring is believed to have caused the blaze.

Stutts, 35, and his wife were sleeping when the fire broke out. Two of the children, Jean, 4, and Nancy, 3, were at home at the time and aroused their parents.

The standard course is scheduled to begin Feb. 6 and meet from 1 to 3 p.m. each Wednesday through March 6. Beginning March 13, an advanced course will be given to meet at the same time through May 1.

Girl Scout leaders who wish to take either course must register with Mrs. Betty Rea, 3221 Wilshire drive. Deadline for registration is Feb. 1 for the standard course and March 8 for the advanced course.

The first aid courses will be taught by Mrs. Cecilia Trachsel, a certified Red Cross instructor. Participation is limited to scouting personnel. Only cost will be purchase of a hand book.

The classes will meet at St. John United Church of Christ, 2801 Nameoki road.

A scouting officer said leaders may take both courses, or those who have had the standard course within the past three years still are qualified for the advanced course.

Between 12 and 15 Boy Scouts of Sacred Heart Church Troop 18 and an adult sponsor will spend the weekend of Feb. 8-9 on the lawn in an observance of Boy Scout Week.

The request was submitted to the council by Scoutmaster Henry J. Helrich, who pointed out that in the scouting tradition, the grounds will be left in better condition than they were originally.

The scouts not only will spend the night and day at the campout site but also will cook their meals. Helrich said a fire pit will be used so as not to damage the lawn.

Alaisi said exhibits will be prepared for display at the senior high school, and demonstrations will be given by junior high school art instructors on the principles of art.

Dates for the workshop have not been set, but evening sessions from 7 to 9 o'clock are being planned, Alaisi said.

The workshop will be open to all elementary teachers in the system and is designed to present exhibitions and demonstrations of art techniques.

"This is the first time such a program of in-service training has been undertaken here," Alaisi said. He pointed out that art instruction in grade schools is required by the state.

Historical Group Praises County Museum Tax Levy

A' Edison Smith of East Alton, president of the Madison County Historical Society, this week praised the action of the county board of supervisors in approving a special tax levy to support the county museum.

The board's action Dec. 26 followed announcement of plans by the historical society to purchase the "Weir house," an old brick home in Edwardsville for use as a permanent home for the museum. The tax funds are for operation and maintenance.

The historical society and the Committee for a Madison County Historical Museum plan a fund drive this month to raise money to purchase and renovate the proposed museum home. The county funds will be collected and available in 1964.

"Great Step Forward" "The society believes a great step forward has been taken in the recent developments which will make a permanent and suitable home possible for the Madison County Historical Museum," Smith said.

"This home will provide ample room as a repository for the display of valuable historical materials which already have been gathered. Many unique display items offered to the society in the past have been declined because adequate display room was not available.

"We believe the new and larger museum will provide a greater research center for the schools and for those persons who wish to add to the wealth of historical information and exhibits which have been gathered and which are so important to the history of southwestern Illinois."

Sequel-Centennial Funds Smith said the Weir property is an historical monument in itself. The building, now 126 years old, is to be bought with funds collected during this month's drive. Initial funds came from profits of the 1962 sequel-centennial activities.

"A community shows its cultural strength when it realizes the value of historical records, works diligently to gather the complete story and then plans adequately to preserve them for future use," Smith said.

"County funds made available by the board of supervisors will be used to maintain the building and grounds for public use and enjoyment without having to meet opening and closing restrictions which are necessary for other public buildings which provide many services."

The county museum at present is located in the courthouse.

Deadline Jan. 31 For Price Support Program

The deadline is Jan. 31 for price-support loans and purchase agreements on a number of crops in 1962. Edwin C. Rethmeier, chairman, Madison County Agricultural Stabilization and Conservation Committee, said today.

The crops include wheat, soybeans and grain sorghums. Rethmeier added that all documents pertaining to the loans must be made, completed and disbursed made by the final date of Jan. 31, 1963. This means, he stated, that applications for farm stored grain must be made not later than Jan. 15 for reason that samples must be collected and tests completed before loan papers can be processed and signed.

The chairman reminded that good storage, which must first be approved by the ASC County Committee, is a requisite for obtaining a price support loan on any eligible farm-stored crop.

While the farmer himself is responsible for storing a crop covered by a purchase agreement, the condition and quality of the crop will be a determining factor in the amount of the support he receives should he decide to deliver his crop under the support program at the end of the season.

\$59,300 MFT For County Madison county has been allocated \$59,300 as its share of motor fuel tax paid into the state treasury during December, it was reported this week at Springfield by the state department of finance.

GC Township Will Contact Mfg. Firm For Oxygen Needs

Purchases of tanks of oxygen from the mayor's funeral home by the Granite City township relief office have been criticized by the council members in the past, and a purchase amounting to \$110 on the relief expense list Monday night may result in a change in the procedure.

While the purchase was approved without comment, it was learned from Supervisor Nelson Hagauer on Tuesday that he plans to confer with officials of the local Air Products Corp. plant for future supplies.

Hagauer told the Press-Record he had contacted several funeral homes in the area, and said a funeral home was the only supplier he could locate.

"I'll check with Air Products, though, and see what can be done in the future," he explained. He explained the 11 tanks were needed for the relief of the relief who was ill in October.

An official of the Air Products plant said the firm could supply the oxygen to the township and that \$10 a tank was the prevailing price, and see what can be done in the future. He indicated he would confer with higher officials of the firm to determine if adjustments could be made for the relief office.

GC Steel Seeks Lower Speed On 20th Street

A request from the safety department of Granite City Steel Co. for lowering the speed limit on 20th street between Madison avenue and Omaha street was received by the city council Monday night and is being forwarded to the state highway department.

Alderman Estill Von Schmitt, who presented the request said that while about 2000 plant employees cross the four-lane street daily, he did not believe the state would reduce the present 30 mile a hour speed limit to the requested 20 mph.

L. C. Parker, safety director for the plant, was in the audience, and was told the city has no control over the limit, which is set by the state since 20th street also carries U.S. Highway 67a.

Safety reasons were cited by the plant in making its request, and it was pointed out the state had denied a request for a pedestrian crosswalk signal light near the entrance.
